

21<sup>st</sup> November 2013

To whom it may concern

This is to confirm that Mr. Ales Guzik has conducted work for the Belarusian development office of PowerMeMobile in early 2013. Ales has been contracted for the “Problem Solver” position in our infrastructure department. As a part of our engineering team he has demonstrated comprehensive system administration skills, an excellent learning ability and a great level of initiative.

His contribution to our deployment procedures in part of the centralized deployment automation with Chef was particularly appreciated. He has also provided a lot of valuable advice in other areas of our development and deployment workflow.

It has been a great privilege to work with Ales, I have no doubts recommending him as a great candidate for the system administrator and software developer positions.

Should you require any further information about Ales’ work for PowerMeMobile, please do not hesitate to contact me at the email address or phone number mentioned below.

Sincerely,

Yegor Veter
